

Calrossy goes Cashless

and what this means for you.

The majority of families already pay their school fees by BPAY. Our invoices/statements contain the Calrossy Biller Code and each family's individual BPAY Reference number.

This is a useful option for families choosing to pay their fees by instalment as they are able to schedule regular payments using their internet banking, according to what best suits their family.

BPAY is only used to pay for items on your school fee invoice.

However, the school fees don't cover ALL school costs and if your child wants to participate in extra curricular sport activities or order lunch items or if you want to support P&F fundraising events, Qkr is the solution.

Extra curricular items cannot be added to your school fee invoice.

Qkr is used to pay for items on your school fees invoice AND extra curricular options, AND sport or other information notes.

But what about casual lunch and pizza days?

We want to minimise cash handling throughout school. This means no longer accepting cash, cheque or EFT payments for casual lunch (or other extra curricular) items.

Currently, some families pay by Qkr!, others by EFT, others with cash etc. Qkr provides a daily email to our catering department (or other departments) with a list of student information. All other payments require manual receipting and a list is manually provided to the catering department every day. This is inefficient and moving to a single payment method will provide a time saving in a number of areas.

We acknowledge this will take some adjustment but are confident the benefits outweigh the current system.

So does this mean I can't use EFTPOS anymore?

We welcome payments by EFTPOS (credit/debit cards or keycard if you are paying in person) or other methods for your school fee items.

Our purpose, is to streamline our record keeping for all non school fee invoiced items such as casual lunch, sport or extra curricular activities. Limiting payment methods will assist a number of areas throughout the school in managing student and financial information.

If you want to pay your school fees by phone or in person with a staff member in the finance office or reception areas, please continue to do this.

We appreciate your patience in this time of transition.

If you have any queries about your school fee account or payment methods, please don't hesitate to contact the finance office.
